Healthcare Products

Stethoscopes

The stethoscope is an acoustic medical device for auscultation, or listening to the internal sounds of an animal body. It is often used to listen to lung and heart sounds. It is also used for listening to intestines and blood flow in arteries and veins. Less commonly, "mechanical stethoscopes" are used to listen to internal sounds made by machines, such as diagnosing a malfunctioning automobile engine by listening to the sounds of its internal parts. Stethoscopes can also be used to check scientific vacuum chambers for leaks, and for various other small-scale acoustic monitoring tasks.

Alcohol Swabs

We offer the best quality swabs that are saturated with isopropyl alcohol, providing maximum hygiene to the patients. This product is extensively used in hospital and is packed by using material that helps in keeping the contents of the product and does not let the alcohol dry.

Lancet Needle Steel

The blood lancet needle that we manufactured is individually packed and is sterile. The point of the needle is very sharp and allows easy penetration in the body thereby minimizing patient trauma. The needle offers fine grip and can be easily disposed off.

Lancet Needle Plastic-Round / Flat

We also manufacture Plastic Lancet with fine point needle, The point of the needle is very sharp and allows easy penetration. Our lancet fit for all Glucometer pens.

Lancing Pen

Our Lancing device is a pen type Latex free, smooth try bevel point.

Prep Razor / Skin Blade

We manufacture Prep Razor / Skin Blade with Platinum Edge Blade mainly used by hospitals before operation to remove unwanted hairs from the patient. Quality of blade is one of the best available in India. Our Prep Razor body is made for better grip of the user.

Bed Sheet / Drapes

Our range of bed sheet / drapes are made of high quality material. These are disposable and available in various sizes.

Airbed

AirCare1000
Alternating pressure relief bubble pad system with pump (A unique bed sores therapy system)

The bubble pad style offers patients more benefit than linear style pad because the bubble design allows more touch points offering a superior therapy system.

- Therapy for stage I pressure
- Very easy to operate
- Adjustable comfort range with pressure adjustable control knob
- Adjustable hangers of pump to suit any kind of hospital bed frames
- Medical grade non-toxic bubble pad mattress with unique design
- Ultra quiet air pump operation / maintenance free

- Therapy for stage I to III pressure
- Fixed hooks, air filter and fuse are provided on the bottom of pump
- Visual low pressure alarm alerts caretaker to low pressure
- Static mode helps nursing care during dressing change and patient repositioning
- CPR facility gives rapid deflation of mattress in emergency

WATER BED FOR PREVENTION OF BED SORE

(Prevention of Bed Sore) Model No. : SLC - WEB - RFWB

TUBULAR AIR MATTRESSES

with Pump & Nylon PVC Cover
(Prevention of Bed Sore)

Model No. : SLC - PTD - 503

Massager Chair

Relax your senses with the most rejuvenating massage at the comfort of your home.

- Full Body Massaging from palm to sole.
- Functions of vibration unit are hidden in the seat and stand to offer comfort vibration for relaxation from fatigue.
- Massage functions include kneading, tapping, shiatsu, as professional as the massagist.
- Each armrest is equipped with 2 sets of airbags, and calves and feet with 18 airbags for relaxing the muscles.
- Back and leg part can be adjusted electrically to obtain a cozy angle.
- With optional DVD player, it can play DVD, VCD, CD, Mp3.

HBP-9020 is equipped with elbow detection sensor and moveable cuff to provide accurate measurements.

The monitor can detect low and soft korotkoff's sound and be used in a noisy environment.

Enhanced user support functions -
Indication for correct arm position for measurement
提示: With an elbow detection sensor to indicate correct arm position. In addition, the cuff can be adjusted according to the body height of the patient so that measurements can always be taken at the correct position comfortably.

Fixed Cuff
The movable arm cuff allows all people to assume the correct measurement position.

Compatible with both left and right arm measurements
A start/stop switch for left arm measurements is located on the right side of the device.

- User-friendly Features**
- Compatible with a wide range of arm thickness (from 17 cm to 42 cm circumference)
 - LED display and audio voice guide users through the measurement procedure, making measurement easy for new users.
 - Audio announcement of results after measurement.
 - Antibacterial finishing for both the device and the cuff cover.
 - Customized printed results with image/logo upload function.

Specifications	
Model	HBP-9020
Display method	LED digital display
Measurement method	Dynamic method
Measurement range	Pressure 0 ~ 299 mmHg 40 ~ 180mm
Pulse	Pressure ±3 mmHg, Pulse ±5% of display reading
Accuracy	Pressure ±3 mmHg, Pulse ±5% of display reading
Deflation	Automatic deflation
Deflation	Automatic deflation
Air release	Automatic rapid air release
Pressure detection	Electrostatic, capacity pressure sensor

Note: Specifications may subject to changes without prior notice.

Measurable arm circumference	17 - 42 cm
Power	AC 100V ~ 240V 50/60Hz
Power consumption	70 VA
Weight	Approximately 5.5 kg
Package dimensions	Approximately 370 (L) x 480 (W) x 270 (H) mm
Accessories included	Armband, cuff cover, power cord, printer paper (1 roll, included), instruction panel, deflation manual, elbow rest guide plate
Options	Stand and chair, printer paper (10 rolls per box), cuff cover

Automatic Blood Pressure Monitor

NEBULIZER - NULIFE HANDYNEB

NEBULIZER - HAMANT AERO

Special Features

Electricity Supply : 230 V-50 Hz/110V-50 Hz
 Pressure : 1.5 bar max.
 Airflow : 8 lt./min. Max.
 Storage / Transport
 Temp. Range : -25° to +50°
 Storage / Transport
 Humidity : 30 to 90%
 Size (mm) : 207x273x97
 Weight : 2.2 Kg. Approx

NEBULIZERS SMARTCARE

MODEL : CHU-CHU Train

Special Features

New and fun design with practical space for cable storage.
 Bright colored toy train nebulizer with blinking lights.
 Comes with stickers for sticking and decorating.
 Makes nebulizing a fun moment!
 High performance jet nebulizer.
 Method of nebulization : dry piston compressor.

Medistar Easy Breast Pump

Manual Breast Pump
 With 2-Phase Technology
 Manufactured from parts imported from Germany

Pulmo Peak Peak Flow Meters

For Monitoring of Asthma
 Manufactured from parts imported from UK

NEBULIZERS OMRON MODEL - NE C25

Special Features

Compact sporty design for easy transport.
 Patented pump design for powerful, quiet operation.
 Convenient carrying case for the nebulizer system and accessories.
 Breath-enhanced nebulizer design for shorter treatment times.
 Operates on 110V A/C supply.
 Specification: Max Pressure 29 psi, Max Air Flow 9.0 lpm,
 Particle size MMAD approx. 5µ, Operating Air Flow Rate 4.0 lpm (at 1.6 psi),
 Nebulizer Rate 0.20 ml/min minimum, Medication Capacity 6 ml (cc).

NEBULIZERS - OMRON MODEL - NE C28

Special Features

Safe and easy-to-clean nebulizer kit
 Child-safe, silicon valve could be easily bitten off and swallowed by the child, causing hazard
 Not easily blot, reducing possibility of any infection

pulmoAide COMPACT COMPRESSOR

DeVilbiss HEALTHCARE

SPECIFICATIONS

Dimensions (H x W x D)
 10.2 x 19.1 x 18.3 cm

Weight 2.18 kg

Electrical requirements
 2.5 A, 115 VAC, 60 Hz

Power consumption
 140 watts maximum

Max. compressor pressure
 2.5 bar or greater

Nebulization rate
 0.15 ml/min or greater

Compressor free air flow
 8 lpm or greater

Operating temperature range
 5° C to 40° C

Supplied nebulizer operating pressure
 0.65 bar

Supplied nebulizer litre flow 5.5 lpm

Supplied nebulizer capacity 6 ml

Supplied nebulizer MMAD
 5 microns or less

Technical Specifications

Product Dimensions	7.5" H x 4.0" W x 6.8" D
Product Weight	4.1 lbs.
Max. Air Pressure	35+ psig
Max. Liter Flow	9+ lpm
MMAD	5 microns or less
Sound	56 dBA
Filter Replacement	No tools
Warranty	5 years
Safety Approvals	ETL
Motor/Pump Assy.	Primarily metal parts
Neb & Cord Storage	Yes
Master Carton Qty.	6

Compressor Nebulizer

NE-C900

High Output Compressor Nebulizer for use in hospitals and clinics

- Effective medication delivery with particle size of MMAD 3 m µ
- Efficient nebulization at a nebulization rate of 0.4ml/min

Moisture Retention Dressings

DuoDERM® CGF® Hydrocolloid

DuoDERM® CGF® (controlled gel formula) Hydrocolloid Dressing consists of a flexible, water-resistant outer layer and an adhesive skin contact layer that contains hydrocolloid particles (sodium carboxymethylcellulose, gelatine and pectin).

DuoDERM® CGF® dressing is indicated for use on lightly to moderately exuding wounds including:

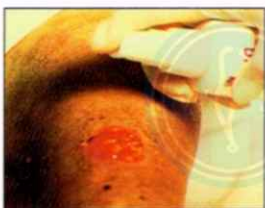

- pressure ulcers, leg ulcers and diabetic ulcers
- traumatic wounds, lacerations, donor sites, first and second degree burns
- post-operative wounds and open surgical wounds

Why choose DuoDERM® CGF®?

- Provides a moist environment that has been shown to help heal wounds faster than conventional dressings¹
- Has been shown to reduce risk of infection by lowering wound pH and creating a bacterial² and viral (HIV-1 and HBV)³ barrier while the dressing remains intact without leakage⁴
- Maintains the moist environment required to activate local enzymes, resulting in debridement of fibrin and necrotic tissue from chronic wounds⁴
- Improves cost-effectiveness because faster healing reduces wound care costs and shortens hospital stays⁵

Easy application of DuoDERM® CGF®

Cleanse the wound surface and surrounding skin with saline or other appropriate cleansing solution, and dry the surrounding skin thoroughly.

Gently roll the dressing over the wound – do not stretch. Smooth dressing into place and hold for 30 seconds to secure. Secure the edges of the dressings with hypoallergenic tape if needed.

To select the ideal dressing size, measure the wound allowing a minimum of a 3 cm margin beyond the reddened skin.

Remove the release paper from the back of the dressing minimising contact with the adhesive surface.

The dressing should be changed if leakage occurs, or can remain in place for a maximum of 7 days. If an Exudate Management Product is necessary to absorb excess exudate, apply AQUACEL™ HYDROFIBER™ or KALTOSTAT® dressing under the DuoDERM® CGF® dressing.

Removal of dressing. Press down on the skin with one hand and carefully lift an edge of the dressing. Continue around until all edges are free and lift from the wound. If necessary, gently irrigate the wound with saline solution to remove any residual gel.

DuoDERM® CGF® Hydrocolloid Dressings	CODE	DRESSING SIZE	PACK SIZE
DuoDERM CGF Hydrocolloid dressing	H7660	187660 10 x 10 cm	5
DuoDERM CGF Hydrocolloid dressing	H7661	187761 15 x 15 cm	5
DuoDERM CGF Hydrocolloid dressing	H7662	187762 20 x 20 cm	5
DuoDERM CGF Hydrocolloid dressing	H7643	187643 15 x 20 cm	5
DuoDERM CGF Hydrocolloid dressing	H7644	187644 20 x 30 cm	5

Exudate Management

KALTOSTAT®

KALTOSTAT® is a highly absorbent calcium alginate dressing derived from naturally occurring, brown seaweed. KALTOSTAT® absorbs wound exudate to form a firm, web-like gel via an ion-exchange mechanism where sodium ions in the exudate are exchanged for calcium ions in the KALTOSTAT® dressing.

KALTOSTAT® is highly absorbent and has haemostatic properties. It is indicated for use on moderately to heavily exuding wounds, including:

- pressure ulcers, leg ulcers and diabetic ulcers
- traumatic wounds, lacerations, donor sites, first and second degree burns
- post-operative wounds, open surgical wounds and sinuses

Why choose KALTOSTAT® wound dressings and packing (rope)?

- Absorbs up to 20 times its own weight in wound exudate¹
- Insulates the wound bed and promotes a moist healing environment²
- Forms an absorbent gel-fibre matrix that promotes re-epithelialisation^{3,4}
- Is easy to apply, non-adherent, and removes in one piece
- Numerous clinical studies support KALTOSTAT® safety and efficacy

Easy application of KALTOSTAT®

Cleanse the wound surface and surrounding skin with saline or other appropriate cleansing solution, and dry the surrounding skin thoroughly.

Trim or fold KALTOSTAT® dressing to the shape of the wound to ensure a smooth continuous fit with the skin surface. If the wound is deep, gently pack with KALTOSTAT® wound packing rope.

To select the ideal dressing size, measure the wound allowing a minimum of a 2½– 3 cm margin beyond the reddened skin.

Cover KALTOSTAT® wound dressing or packing rope with a Moisture Retention Dressing such as DuoDERM® CGF® dressing, with or without border by gently rolling the dressing over the wound - do not stretch. Smooth dressing into place and hold for 30 seconds to secure. The dressing should be changed if leakage occurs or can remain in place for maximum of 7 days.

Removal of dressing. Press down on the skin with one hand and carefully lift an edge of the DuoDERM® CGF® dressing. Continue around until all edges are free and lift from the wound. Simply remove the KALTOSTAT® dressing.

The innovative SUR-FIT PLUS system flanging mechanism is designed to give security and peace of mind. Deeper flange grooves and raised retention bumps secure the pouch firmly in place and prevent "pop-off". Your patient will hear and feel the series of clicks as the flange's coupling system is secured within the U channel of the pouch.

PATIENT IDENTIFICATION BANDS

➤ Patient Identification bands is an important way to reduce patient safety risks. Patient misidentification continues to result in medication errors, transfusion errors, testing errors, wrong person procedures, and the discharge of infants to the wrong families. Today, with as many as one million people harmed by errors during treatment at hospitals each year, identification of patient using wristbands helps minimize medical errors and administrative issues can be handled efficiently.

➤ Bio-X offers optimal and secure patient identification solutions for healthcare facilities.

➤ Colour coding of wristbands facilitates rapid visual recognition of specific issues and can be modified as per the requirement of the organization.

➤ We offer Patient Identification solutions for admissions, blood, mother and baby, paediatrics, disaster response, outpatient and emergency room purposes.

ADULT INSERT CARD BAND

- Light weight strong, soft vinyl
- Clear shield provides easy, accurate bar code scanning, protection from water & other abrasives
- Non transferable, secure plastic snap provides maximum security
- Information Area: 87mm X 20mm
- Customised printing on request
- Packing: 250 pcs/box

Colour Available : Red, Green, Blue, Yellow, Black, White, Pink, Orange

PEDIATRIC WRITE ON TYPE BAND

- Write on Type Bands
- Soft Vinyl
- Snap Closure
- Customised printing on request
- Information Area: 54mm X 18mm
- Packing: 250 pcs / box

Colour Available : Pink, Blue

MOTHER-INFANT BANDS

- Mother Baby Insert card type with identification numbers to co-relate the mother with the baby
- Insert Card
- Soft Vinyl
- Snap Closure
- Custom Printing Available on Request
- Information Area: 65mm X 21mm (Adult) / 53mm X 15mm (Infant)
- Packing: 250 sets/ box

Colour Available : Pink, Blue, White

* Carrying Warranty at Rajkot Office only on site warranty not provided free of cost.

* Due to constant upgradation design, price and features are subject to change any time without prior notice.

TOP SYRINGE

MANUFACTURING COMPANY PRIVATE LIMITED
Since 1964

Toomey 'Allo' Glass Syringes

Used for Post Operative Aspiration as mentioned in Endoscope Reprocessing Guides especially flexible Endoscopes consisting of the following steps:

1. Pre-cleaning
2. Manual Cleaning
3. Rinsing
4. High Level Disinfection
5. Re-Rinsing &
6. Drying

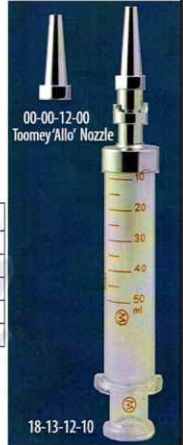

Features:

- "LO" metal adaptor is reinforced in the glass barrel
- Standard adaptors are compatible with Endoscopes of STORZ
- As Per **STORZ** Article no 27211LO - 50ml, 27212LO -100ml

Catalog No.	Description	STORZ
18-13-12-10	50ml, TRUTH Toomey 'Allo' Glass Syringes, Metal Base with Nozzle, 5ml Graduation	-
18-13-00-10	50ml, TRUTH Toomey 'Allo' Glass Syringes, Metal Base without Nozzle, 5ml Graduation	27211LO
18-15-12-10	100ml, TRUTH Toomey 'Allo' Glass Syringes, Metal Base with Nozzle, 5ml Graduation	-
18-15-00-10	100ml, TRUTH Toomey 'Allo' Glass Syringes, Metal Base without Nozzle, 5ml Graduation	27212LO
00-00-12-00	Only Toomey 'Allo' Nozzle for TRUTH Toomey 'Allo' Glass Syringes	27220

Custom made adaptors can also be made available upon request suitable for endoscopic attachment for post operative aspiration.

STORZ Logo is a sole property of KARL STORZ GmbH & Co. KG

TRÜTH GLASS SYRINGES

TOP SYRINGE
MANUFACTURING COMPANY PRIVATE LIMITED

1) Standard Glass Syringes 2ml to 20ml

TRÜTH Hypodermic Glass Syringe are manufactured from high quality Borosilicate Heat Resistance Glass. Available in standard Tip Styles of All Glass Luer Tip, Metal Luer lock Tip.

Available 2ml, 5ml, 10ml, 20ml Capacities

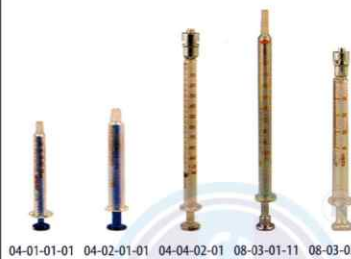

Description	Glass Luer Tip	Metal Luer Lock Tip	Graduation
2ml, TRÜTH Hypodermic Glass Syringes	01-05-01-05	01-05-02-05	0.2ml
5ml, TRÜTH Hypodermic Glass Syringes	01-08-01-06	01-08-02-06	0.5ml
10ml, TRÜTH Hypodermic Glass Syringes	01-09-01-07	01-09-02-07	1ml
20ml, TRÜTH Hypodermic Glass Syringes	01-10-01-08	01-10-02-08	2ml

2) Mini Glass Syringes 1/4ml to 2ml

TRÜTH Syringes are widely used in both clinical and research procedures for the administration of precise low-volume doses ranging from 1/4ml to 2cc. Fabricated of chemically resistant borosilicate glass with easy-to-read accurate permanent calibration lines. The 1cc syringe is fitted with a white or blue plunger with standard graduations. Insulin Syringes come with special marking of 1ml = 40 units, & 2ml = 80 units & 100 units.

Description	Glass Luer Tip	Metal Luer Lock Tip	Graduation
0.25ml, TRÜTH Mini Glass Syringes	04-01-01-01		0.01ml
0.5ml, TRÜTH Mini Glass Syringes	04-02-01-01		0.01ml
1ml, TRÜTH Mini Glass Syringes	04-04-01-01	04-04-02-01	0.01ml
1ml Short, TRÜTH Insulin Glass Syringes	08-03-01-11	08-03-02-11	Units
1ml Long, TRÜTH Insulin Glass Syringes	08-04-01-11	08-04-02-11	Units
2ml, TRÜTH Insulin Glass Syringes	08-05-01-11	08-05-02-11	Units

3) Large Volume Glass Syringes 50ml, 100ml, 150ml, & 200ml

FOR BIOMEDICAL, ENVIRONMENTAL, LABORATORY, CLINICAL, RESEARCH AND INDUSTRIAL PROCEDURES

The expanded product line of TRÜTH Large Volume / Jumbo syringes are manufactured of high quality resistant glass, carefully fitted and crafted to provide long and satisfactory service. Available in various sizes, these syringes feature large effluent chrome-plated metal luer lock tips or glass luer slip tips.

For environmental and chemical testing applications TRÜTH Large Volume / Jumbo Syringes provide a necessary means for efficiently dispensing larger volumes of corrosive, toxic and noxious liquids in a broad range of important and critical procedures. These include aspirating, infusing, pipetting, sampling and dispensing.

Description	Metal Luer Lock Tip	Graduation
50ml, TRÜTH Jumbo / Large Volume Glass Syringes	11-13-02-08	2ml
100ml, TRÜTH Jumbo / Large Volume Glass Syringes	11-15-02-10	5ml
150ml, TRÜTH Jumbo / Large Volume Glass Syringes	11-16-02-10	5ml
200ml, TRÜTH Jumbo / Large Volume Glass Syringes*	11-17-02-10	5ml

* 200ml and above size available on request

* Carrying Warranty at Rajkot Office only on site warranty not provided free of cost.

BIO MEDICAL WASTE COLLECTION TROLLY & BAG

Available in Variable Ltr. Capacity
with stand without / with foot
operated.

➔ Sizes available :
12 Ltr. / 35 Ltr. / 40 Ltr. / 60 Ltr. / 80 Ltr. / 100 Ltr.

- ➔ Non Chlorinated / Bio Hazard Symbol printed Plastic Bag as per BMW Handling Rule 1998 & GPCB Guidelines
- ➔ Available Colours : Black, Blue, Green, White, Yellow, Red
- ➔ 100% Leak proof special sealing & high tensile strength
- ➔ Colourful, Strong, Durable
- ➔ Available in 2.5 kgs. / 5 kgs. / 10 kgs. pack
- ➔ Wide market network & satisfied Govt. / Private user all over India
- ➔ Sizes available :

13x16	13x18	15x15	16x20	16x32	18x18	18x22
-------	-------	-------	-------	-------	-------	-------

(WXL - Inches)

18x24	20x18	20x20	20x24	20x28	22x30	20x32
24x24	24x26	24x28	24x36	26x26	26x32	26x40
28x30	29x32	29x39	30x30	30x35	32x30	32x40
33x26	33x40	35x35	35x45			

or any size as per your requirement / specification.

- ➔ Also available in BIODEGRADABLE Material
- Also Confirm ASTM Standards # D-4364-94, G 21-96, D-5210-98, D-3826-98 & IS Standards # 12395-1988, 9738-1990, 2508-1984 for Water Leak Test, Printing Test, Tensile Test & Drop Test.

Ideal for use in
Health Care establishments,
Nursing Homes, Laboratories & Doctors

Manufactured as per the Standards of BMW
Managements & Handling Rules 1998 Govt. of
India Ministry of Environment & Forest

INTUBATION INSTRUMENTS

Intubation Instruments

LMA Unique - Disposable

Used successfully on a variety of patients worldwide. The LMA Unique can be used for a wide range of routine applications ranging from general anaesthesia to emergency care in an uncontrolled situation.

Blade

Disposable blade not required for most intubations.

Smooth intubation from insertion.

Advanced intubation equipment.

Advanced cuff and dental flange.

Disposable.

Light weight.

ANAESTHESIA MACHINE & ALL ITEM - 3

Suction & Compressors

Rao's Foot Operated Suction Pump

FEATURES

- Substantially of plastic body.
- No requirement of electricity.
- High capacity.
- Hand operated.

It is a compact unit of high capacity & effective suction pump. It is easily carrying and cleaning. The suction is produced and controlled under the handle of the suction line. A rated amount of 25 liter of fog is extracted after a single compression & release of the handle and after the completion the retention of 20 liter of fog is retained. The use of pumping required in this apparatus can save time & trouble. In an emergency situation the handle can be used for suction & control. It is designed through an overflow outlet on the top use of the bottle and also on the top of the handle. The other features include the reservoir for the retention of 20 liter of fog. It is applicable to dental surgery by holding it against it. The maximum suction capacity is listed in the following table.

Dist. length	200 X 100 X 100
Net weight	1200g
Capacity	250
Max. Pressure	100
Air	Plastic, Polyethylene, Polypropylene

Electric Micromotor portable system. speed: 2,000-40000 min. Portable system complete with memory program.

SURGICAL MOTORS

Surgic AP

For implants and oral surgery. Compact and programmable. It possesses all the resources necessary for a specific work. It memorizes up to 8 programs. Every program memorizes speed, torque, flow of cooling and sense of rotation. Every adjustment can be modified even when the unit is in use. Screen LCD of great size for a better visualization.

Surgic KT Pro

Control Unit with AHC

• Power Supply : AC120V or 230V 50/60Hz

• Max. Pump Output : 750L/min

• Programs : 18 Program Implant System

• Dimensions : 1025 x 320 x 1100 (mm)

Vario Surg

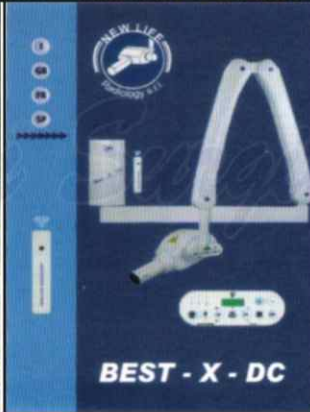

Power: superior cutting capability shortens treatment time

Visibility: optic handpiece assures safe and easy surgical procedures

Minimally invasive: eliminates heat generation during bone dissection

Safe: avoids damage to soft tissue even during accidental contact

Precision: cavitation effect of irrigation solution keeps surgical site blood free.

Manish Vyas
Managing Director
Western Surgical

We, "Western Surgical", are one of the leading ISO-9001 & ISO 13485 certified manufacturers and suppliers engaged in offering wide assortment of Surgical Equipment. These Products are widely acknowledged for their high durability, reliability, longer functional life, corrosion & abrasion resistance.

Our entire product range is manufactured using quality-approved raw material and high-tech machines to ensure its flawlessness. The capacious warehouse and wide distribution network allow us to meet the urgent and bulk requirements of our clients within the stipulated time frame.

Owing to their superior quality and high tensile strength, these products are widely demanded in various application areas like medical institutes, clinics, dispensaries, laboratories and nursing homes. Our staff helps us in fabricating the products in compliance with pre-determined national and international industrial standards. We have an excellent team of researchers, which helps us in upgrading the existing range of products.

One Stop Showroom For Hospital & Healthcare Products

Under the profound leadership of our mentor, 'Mr. Manish vyas', we have established a huge client base across domestic markets as well as export market covered by our dealers. His excellent managerial skills have enabled us to develop healthy business relations with our clients.

Our Team:-

Our organization aims at delivering best quality products to our clients. For the same, we have appointed a team of highly qualified and skilled professionals. These professionals possess rich experience in their respective fields. They apply latest methodologies and quality-proven raw material in fabricating these products.

- ✓ Wide distribution network
- ✓ Customization policies
- ✓ Ethical business dealing
- ✓ Experienced staf gives after sale service

Aim :- Our Aim is Give Our Customer Good Quality & Competent Price Goods and Transparent Business Policy No Any In Verbal Commitments But Commitment Is Commitments.

Vision :- Our vision is we become a large industry in medical surgical products, with the support of all our buyers / sellers / supporters / our team , mission & our aim.

Since 1996

WESTERN SURGICAL

AN ISO 9001 : 2008 & ISO 13485 : 2015 AC 2012 CERTIFIED COMPANY

Our professionals work in sync with each other to maintain healthy business relations within and outside the organizational premises. These professionals fabricate every product in compliance with the industrial norms and regulations.

Why Us:-

We are one of the prominent manufacturers and suppliers of Surgical Equipment, instruments & surgical disposables. Our large production capacity and experienced team of professionals help us in rendering customized solutions to the clients. We are capable of catering bulk & urgent requirements within the pre-defined time frame. Following factors make us a preferred choice of our clients:

- ✓ Quality-approved product range
- ✓ Competitive prices

Mission :- We want to see all our customers smiling face with our name on his heart & tongue.
